# HEAVY FIGHTING IN THE DESERT!

## ANOTHER EXECUTION?

Earlier this week the bodies of **three USMC soldiers** were found in what appears to be an abandoned Axis excavation site. The three soldiers were apparently **shot** by a small caliber gun from close range.

Several reports from reliable sources indicate that the notorious **Major Tina Baumann** may be responsible for these hideous crimes (seen with her vicious pet hyena in the photo above). One source even goes as far as to claim that Major Baumann executed the three brave soldiers **personally!**

Whether this is true or not we may never know, but she has been accused of similar villainous acts before.

The three brave soldiers have now been transported to Allied controlled territory and will receive a proper military burial.

## HERO STILL MISSING

The man, and Hero, who is only known as "**The Chef**" have now been missing for almost two weeks, as reported earlier by BG. He disappeared right after cooking dinner (his famous roasted chicken) in the Allied base, just outside of Baghdad.

Several witnesses claim that the roasted chicken was as delicious as always, but they never saw Chef leaving the camp.

According to a few different reports, The Chef may have been captured by SSU forces. At least one source claims to have seen him close to the SSU Command HQ in their Al-Hamza base.

Yet other rumors tell of sightings of The Chef as far away as Berlin, and that he might actually be an SOE agent on a secret assignment.

However, those rumors are firmly dismissed by all Allied officers that BG has contacted on the matter.
